**Subject:** Utah State University

Dear Sir or Madam,

My name is Kenzie Bowcutt and I am an International Recruiter at Utah State University in the US.

I wanted to reach out to you and let you know what a great option Utah State University (USU) is for your students.

USU is a great value for students looking to do undergraduate research and gain hands-on experience in over 165 degrees, including Aerospace, Aviation, Business, Engineering, and Agriculture. The job market in Utah is great as we have been ranked as the best state for business 2 years in a row by Forbes. USU is also located in one of the safest college towns in the US and is one of the most affordable universities in regards to room and board. I know that many of your students are wanting to apply to a few universities and typically they range from an Ivy League school to some safety schools. USU is definitely a great option for a safety school for your students as we have a minimum 2.5 GPA requirement and only require one test to determine their English proficiency score (TOEFL 71, IELTS 6.0, SAT 500 in Critical Reading, and ACT 18 in English). We do not require letters of recommendation, personal statements or essays. The process to apply and be accepted is really easy and simple.

Student life is great, because we are a Division 1 school for sports, we have over 100 clubs, affordable rent around \$250-\$300 a month, free public transportation throughout the entire city, and free bikes for students.

For more information, please visit: <http://study.usu.edu/> and refer to the flier I have attached.

If you could pass this information on to your students, I would greatly appreciate it. Also, if it would be helpful to do a skype presentation with you and your students, I would be more than happy to do that.

Kind regards,

**Kenzie Bowcutt**
